END USER EXPO PASS REGISTRATION

A Full Day of Education for Free

Data Center World Summit Program

AFCOM's Data Center Summit Program allows you to have uninterrupted time with vendors of your choice to sit down and discuss your needs, frustrations and challenges and how these vendors can help make your life easier. [Click here](#) for a detailed description about this program and a list of participating vendors.

Product Information Sessions

Product Information Sessions offered with this one-day pass provide educational information about the data center industry. [Click here](#) for a complete list of sessions offered.

Data Center World Expo

DCW Expo is the largest tradeshow for data center management professionals, covering the entire data center – from operations to facilities management. Come see why this show has been named one of The Fastest 50 growing shows for three consecutive years. [Click here](#) for a complete list of exhibiting companies.

Closing Party

Join your peers and celebrate one of the most memorable decades in history, The Sixties, and take a wonderful opportunity to "chill out" and make lifelong contacts.
