

During your evaluation of this Server Technology Sentry CDU(s), the following are a few key features to consider:

PTTS – Fail-Safe Transfer Switch

- Seamlessly transfers power from one source to another
- Primary Supply Switch allows user to select whether the primary supply is drawn from the A-input or B-input
- LED indicators identify which power source is supplying power to outlets
- Voltage selection switch allows user to choose between 110-120V or 200-230V AC.
